SUMMARY

Dedicated and ambitious Computer Science and Engineering student, currently pursuing a Bachelor's degree at Bangalore Institute of Technology. Eager to contribute dynamic problem-solving skills and a solid foundation in software development to a forward-thinking team. Fuelled by a desire to make a meaningful impact in the technology landscape, I am actively seeking entry-level positions that offer the opportunity to grow, learn, and contribute to cutting-edge software platforms.

EDUCATION

B.E. Computer Science & Engineering | Bangalore Institute of Technology | CGPA**: 8.34** | Bengaluru, Karnataka | 2024

PUC II | Gurunagalingeswara PU Col | Percentage: **96** | Kalaburagi, Karnataka | 2020

X | The Manik Public School | Percentage**: 85.6** | Bidar, Karnataka | 2018

PROJECTS

To-Do MERN Application | August 2023

- It is a full-stack application developed using MERN stack which allows the user to create an account and store notes that can be categorised.
- A user can perform CRUD operations on the notes and user authentication is implemented using JWT.

Bike Dealership Management System | December 2023

- Developed the project UI using HTML, CSS, and Javascript, ensuring a seamless User Interface. Utilized MySQL as the database for data storage and employed PHP to process the form data.
- Designed the Bike Dealership Management System with distinct modules for administrators and users. Empowered administrators to add bikes to the inventory, providing potential buyers with the capability to view and book available bikes.

Movie Review Application | February 2024

- A full-stack application developed using Java and Spring Boot for the backend, ReactJS for the front-end and MongoDB for the database.
- The application separates the client code and the user code with the help of loosely coupled architecture and allows the users to write reviews from the available list of movies.

SKILLS

1. Programming Languages:

- Java
- C

2. Web Development:

-HTML

-CSS

-Javascript

-ReactJs

3. Database Management

- MySQL

CERTIFICATIONS

- The Complete 2023 Web Development Bootcamp | Udemy
- Data structures and Backend with Java | Coursera
- 100 Days of Code: The Complete Python Pro Bootcamp for 2023 | Udemy
- Competitive Programming and Cognitive Skills Achievement Certificate | Quant Masters Technologies Pvt. Ltd.

INTERNSHIP

• **IT Secure Systems [21st November 2023 – 20th December 2023]**

During the internship, I engaged in a diverse range of tasks within a dynamic corporate environment, gaining substantial exposure to various aspects of Web Development. Guided by seasoned professionals, I acquired hands-on experience in Front-End Development, developing a practical grasp of industry norms. Active involvement in team collaborations and project meetings yielded valuable insights, crucial to meeting project objectives. Overall, this experience offered a holistic learning opportunity, equipping me with essential skills and knowledge for advancing in the field of Web Development.
